## MANAGEMENT OF ELECTRONIC PROTECTED HEALTH INFORMATION (ePHI)

1. Can this device transmit or maintain electronic Protected Health Information (ePHI)?
   - Yes

2. Types of ePHI data elements that can be maintained by the device:
   a. Demographic (e.g., name, address, location, unique identification number)?
   - Yes
   b. Medical record (e.g., medical record #, account #, test or treatment date, device identification number)?
   - Yes
   c. Diagnostic/therapeutic (e.g., photo/radiograph, test results, or physiologic data with identifying characteristics)?
   - Yes
   d. Open, unstructured text entered by device user/operator?
   - Yes

3. Maintaining ePHI - Can the device
   a. Maintain ePHI temporarily in volatile memory (i.e., until cleared on by power-off or reset)?
   - Yes
   b. Store ePHI persistently on local media?
   - Yes
   c. Import/export ePHI with other systems?
   - Yes

4. Mechanisms used for the transmitting, importing/exporting of ePHI – Can the device
   a. Display ePHI (e.g., video display)?
   - Yes
   b. Generate hardcopy reports or images containing ePHI?
   - No
   c. Retrieve ePHI from or record ePHI to removable media (e.g., disk, DVD, CD-ROM, tape, CF/SD card, memory stick)?
   - Yes
   d. Transmit/receive or import/export ePHI via dedicated cable connection (e.g., IEEE 1073, serial port, USB, FireWire)?
   - Yes
   e. Transmit/receive ePHI via a network connection (e.g., LAN, WAN, VPN, intranet, Internet)?
   - Yes
   f. Transmit/receive ePHI via an integrated wireless connection (e.g., WiFi, Bluetooth, infrared)?
   - Yes
   g. Other?
   - Yes

---

## ADMINISTRATIVE SAFEGUARDS

5. Does manufacturer offer operator and technical support training or documentation on device security features?
   - Yes

6. What underlying operating system(s) (including version number) are used by the device?
   - See Notes

---

## PHYSICAL SAFEGUARDS

7. Are all device components maintaining ePHI (other than removable media) physically secure (i.e. cannot remove without tools)?
   - See Notes

8. Does the device have an integral data backup capability (i.e., backup onto removable media like tape, disk)?
   - No

9. Can the device boot from uncontrolled or removable media (i.e., a source other than an internal drive or memory component)?
   - No

---

## TECHNICAL SAFEGUARDS

10. Can software or hardware not authorized by the device manufacturer be installed on the device without the use of tools?
    - Yes

11. Can the device be serviced remotely (i.e., maintenance activities performed by service person via network or remote connection)?
    - Yes
    a. Can the device restrict remote access to specific devices or network locations (e.g., specific IP addresses)?
    - Yes
    b. Can the device provide an audit trail of remote-service activity?
    - No
    c. Can security patches or other software be installed remotely?
    - Yes

12. Level of owner/operator service access to device operating system: Can the device owner/operator
    a. Apply device manufacturer-validated security patches?
    - Yes
    b. Install or update antivirus software?
    - Yes
    c. Update virus definitions on manufacturer-installed antivirus software?
    - Yes
    d. Obtain administrative privileges (e.g., access operating system or application via local root or admin account)?
    - Yes

13. Does the device support user/operator specific username and password?
    - No

14. Does the system force reauthorization after a predetermined length of inactivity (e.g., auto logoff, session lock)?
    - Yes

</table>

**Manufacturer or Representative Contact Information:**
- **Company Name:** VIDAR Systems Corporation
- **Representative Name/Position:** Robert May/Manager Global Partner Support
- **Phone:** 703-471-7070
- **Email:** bob.may@3dsystems.com

15. Events recorded in device audit trail (e.g., user, date/time, action taken): Can the audit trail record:

<table>
<thead>
<tr>
<th>Event</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Login and logout by users/operators?</td>
<td>Yes</td>
</tr>
<tr>
<td>b. Viewing of ePHI?</td>
<td>Yes</td>
</tr>
<tr>
<td>c. Creation, modification or deletion of ePHI?</td>
<td>Yes</td>
</tr>
<tr>
<td>d. Import/export or transmittal/receipt of ePHI?</td>
<td>Yes</td>
</tr>
</tbody>
</table>

16. Does the device incorporate an emergency access (“break-glass”) feature that is logged?

<table>
<thead>
<tr>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>No</td>
</tr>
</tbody>
</table>

17. Can the device maintain ePHI during power service interruptions?

<table>
<thead>
<tr>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>No</td>
</tr>
</tbody>
</table>

18. Controls when exchanging ePHI with other devices:

<table>
<thead>
<tr>
<th>Event</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Transmitted only via a point-to-point dedicated cable?</td>
<td>No</td>
</tr>
<tr>
<td>b. Encrypted prior to transmission via a network or removable media?</td>
<td>No</td>
</tr>
<tr>
<td>c. Restricted to a fixed list of network destinations</td>
<td>No</td>
</tr>
</tbody>
</table>

19. Does the device ensure the integrity of the ePHI data with implicit or explicit error detection/correction technology?

<table>
<thead>
<tr>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Yes</td>
</tr>
</tbody>
</table>

### SECTION 2

**EXPLANATORY NOTES (from questions 1 - 19)**

**IMPORTANT:** Refer to Section 2.2.2 of this standard for the proper interpretation of information requested in this form

5. We support Windows Operating Systems: XP SP3 and Windows 7 SP1 both 32 and 64 bit OS.

7. Hardware is supplied by Third Party Company. VIDAR only supplies the Software to be installed on the Hardware. This question should be directed to the Hardware provider.

19. Windows TCP/IP is the only DICOM supported method we use for transmitting information.
